

IMPORTANT NOTICE

THE TEACHING EVALUATION

The evaluation of the courses must be realized at least two thirds of the course and it is mandatory for the registration to the appeals and it is useful for the students in order to evaluate and improve the quality of the teaching.

Through the opinions of the students the University collects systematic information on the usefulness of the educational material, the clarity of the examination methods on the availability of the professor to answer questions from students, etc.

The data are collected, processed and spread in anonymous form: in fact it's not possible connect the identity of the student to the answers. The data are processed and discussed in special boards of the University and the Degree Course in order solve potential problems and at the same time take the cue from the best examples. Therefore we invite you to express the opinion with sincerity and objectivity.

In order to fill in the teaching evaluation questionnaires you have to log on the web page:
<https://www.studenti.uniupo.it>

If you have problems in accessing or viewing the questionnaires, please contact your Didactical and Services Students Office.
